

## Application for Enrollment

The Propane Education & Research Council (PERC) is seeking a limited number of agriculture producers to demonstrate select, new propane-fueled equipment and collect valuable research data through the Propane Farm Incentive Program. As part of this initiative, PERC hopes to place a variety of equipment on farms and agribusinesses in various parts of the country. In return, applicants who are selected to take part in the program will be paid a financial incentive for their participation.

Please complete and return this form to apply for the Propane Farm Incentive Program.
